ORGANO-PHOSPHORUS COMPOUNDS. IV.
DERIVATIVES OF SUBSTITUTED 2-CHLOROPHENYLPHOSPHINIC AND
PHOSPHONIC ACIDS

by

Raymond Wilbur Morrow

A THESIS

Presented to the Faculty of
the Graduate College in the University of Nebraska
in Partial Fulfillment of Requirements for the
Degree of Doctor of Philosophy
Department of Chemistry

Lincoln, Nebraska

September 5, 1944

INFORMATION TO USERS

The quality of this reproduction is dependent upon the quality of the copy submitted. Broken or indistinct print, colored or poor quality illustrations and photographs, print bleed-through, substandard margins, and improper alignment can adversely affect reproduction.

In the unlikely event that the author did not send a complete manuscript and there are missing pages, these will be noted. Also, if unauthorized copyright material had to be removed, a note will indicate the deletion.

TABLE OF CONTENTS

Introduction.	1
Graphical Summary	4
Experimental.	6
A. Preparation of 2,5-Dichlorophenylphosphonic Acid and Derivatives.	6
1. 2,5-Dichlorophenylphosphonic acid	
2. Monoammonium salt of 2-anilino-5-chloro- phenylphosphonic acid	
B. Preparation of Bis(2,5-dichlorophenyl)phosphonic Acid and Salts.	8
1. Bis(2,5-dichlorophenyl)phosphonic acid	
2. Sodium salt of bis(2,5-dichlorophenyl)- phosphonic acid	
3. Ammonium salt of bis(2,5-dichlorophenyl)- phosphonic acid	
C. Preparation of 2-Hydroxy-5-bromophenylphosphonic Acid.	10
D. Preparation of 2-Chloro-4-dimethylaminophenyl- phosphinic Acid	11
1. m-Chlorodimethylaniline	
2. 2-Chloro-4-dimethylaminophenylphosphinic acid	
Analytical.	14
Discussion.	16
Summary	26
Bibliography.	27
